

Special Issue on Advances in Clustering, Classification and Related Methods

The journal *Advances in Data Analysis and Classification* will publish a Special Issue on **Advances in Clustering, Classification and Related Methods**, associated to the conference

CLADAG 2023: 14th Scientific Meeting of the Italian Classification and Data Analysis Group.

This Special Issue aims at gathering selected papers in different areas related to *new developments in clustering, classification and related methods*. Topics of particular interest may include, but are not limited to:

- Clustering and classification for complex data (big data, multi-way data, etc.)
- Functional data analysis
- Latent variable modeling
- Machine learning and AI for clustering and classification
- Network analysis
- Robust modeling

All manuscripts submitted to this Special Issue will undergo the *classical double-blind reviewing process of the journal*. Manuscripts should be submitted using the “Submit manuscript” button on the ADAC website <https://www.springer.com/journal/11634>, leading to the electronic submission system of the journal.

Below the keywords, please write “CLADAG 2023 SPECIAL ISSUE”

Important dates:

Submission of full papers for the Special Issue: February 15, 2024 (earlier submission is encouraged).
Notification to authors: June 30, 2024 (tentative). Final papers: September 30, 2024 (tentative).

Guest Editors:
